SPECIFICATIONS (CON'T)

TRIM	Thin profile 1-1/8" (28 mm) Matte White (-11) or Satin Nickel (-13) available. Packaged with a plastic protection film on the bottom face to ensure ease of installation.
MOUNTING	The space required beyond ceiling material is 1-3/4" (44 mm). The maximal thickness of the ceiling is 1" (25 mm). Beyond this thickness, springs will apply less pressure between the trim and the ceiling. The base of the trim will thus have some difficulty to sit flush with the ceiling.
JUNCTION BOX	10 cubic inches junction box with independent auxiliary connection and keyholes for fixing to the structure. Includes driver with factory assembled triple push-in connectors.
DIMMING	Compatible with Electronic Low Voltage (ELV) and Incandescent (TRIAC) dimmers. We invite you to consult frequently our Web site to find our suggested compatible dimmers list: www.contrastlighting.com
ACCESSORIES	 6' (2 m) and 20' (6 m) cables (see ordering code) Mounting Plates (see ordering code) Goof Rings (see ordering code)
