

T8 GLASS LED LAMP

18W (120-277V / 347V)

#T8G2-184-5

 BALLAST COMPATIBILITY
to work with most 120-277V and 347V ballasts

 GLASS TUBE
for superior heat dissipation

 PLUG AND PLAY
for direct replacement of T8 fluorescent lamps

 TYPE A UL
certification to ensure product safety

5 YEAR WARRANTY

DESCRIPTION

These LED T8 Lamps are commercial grade, energy saving replacements for traditional fluorescent T8 lamps. With a glass tube design for better heat dissipation that won't yellow over time and being Rapid Start, Instant Start, and Magnetic ballast-compatible, these LED T8 Lamps are a true plug and play solution.
